How did you choose your specialty?

I chose internal medicine because it encompasses every body system and gave me the skills to manage any medical condition.

What do you enjoy most about being a physician?

I enjoy having a positive impact on my patients lives and really appreciate my daily interactions in the clinic with our team.

What is your philosophy of care?

A good physician should connect with their patients personally and always listen to them - they know themselves best! Patients are more than just patients; they are parents, siblings, children, friends, neighbors, and so forth. As a physician, I value each patient's unique identity and respect it.

What are your hobbies and interests?

Of course, I most enjoy spending time with my family, but I also love a fun pick-up basketball game with my friends.

Why did you decide to become a physician?

I am a lifelong knowledge seeker who loves to learn! Becoming a physician allows me to combine my love for learning with my desire to create meaningful, positive change for others.
